Objective

Detail-oriented and motivated problem solver, seeking to join a team to create future-now solutions by applying strong foundational machine learning knowledge.

Education

Cleveland State University - Cleveland, Ohio

Computer Science M.S.

Fall 2020 – Spring 2025

Physics B.A.

Fall 2018 – Fall 2021

Key Courses

- ❖ Artificial Intelligence
- ❖ Machine Learning
- ❖ Deep Learning
- ❖ Data Mining

Merit Awards

- Dean's List — GPA of 3.81
-

Professional Experience

Student Research in Physics – Atmospheric Science

Summer 2020

Cleveland State University, lab of Dr. Thijs Heus

- ❖ Explored and analyzed data from DALES cumulus cloud simulations using Python, to estimate rainfall chance and intensity.

Student Research in Computer Science - Quantum Computing

Summer 2023

Cleveland State University, lab of Dr. Janche Sang

- ❖ Researched and reported on modern Quantum Computing algorithms and methods.
 - ❖ Proposed lesson plans for a new Quantum Computing II course in the upcoming year.
-

Skills

- ❖ Python, PyTorch, Machine Learning, Image Processing AI, Feature Engineering
- ❖ Leadership, Communication, Problem Solving, Agile Methods, Statistical Modelling
- ❖ Java, Javascript, JSP, SQL, PHP, Arduino, HTML/CSS, Git
